2+ YEARS part-time contract IT support	50+ PCs built, upgraded, or prepared	WINDOWS + LINUX endpoint and VPS work
--	--	---

PROFILE

IT support technician with 2+ years of part-time contract experience supporting Windows endpoints, resolving hardware, software, and connectivity incidents, and preparing 50+ PCs. Hands-on with Ubuntu VPS administration, SSH, Apache, MySQL, VPN services, and remote support. Seeking L1/L2, desktop support, helpdesk, or junior system administration roles.

EXPERIENCE

KiliaService
IT Support Technician / Junior System Administrator
Part-time Contractor | Nov 2023 - Mar 2026

- Supported Windows 7/10/11 users with OS, driver, and application installation, configuration, and troubleshooting.
- Diagnosed hardware faults, replaced components, and restored affected workstations to stable operation.
- Built, upgraded, and prepared 50+ PCs, including Windows deployment, peripheral setup, and functional checks.
- Resolved Wi-Fi, router, VPN, and device connectivity issues; documented recurring problems and practical fixes.

SELECTED WORK

MinatoCargo Marketplace
PHP / MySQL / JavaScript / role-based workflows
daniilportfolio-lake.vercel.app/project.html?project=minatocargo-marketplace

Built a database-backed marketplace with seller and admin workflows, multilingual UI, account management, support forms, and structured troubleshooting.

Self-Hosted Services
Ubuntu VPS / Apache / MySQL / SSH / WinSCP

Deployed and maintained a personal website, VPN, and Telegram Web App, including configuration, updates, service checks, and routine Linux maintenance.
